

FUJIDA HEAVY GREASE –GRL

Multi purpose heavy duty Grease

Description

FUJIDA HEAVY GREASE-GRL is a complex lithium-based grease with good water resistance property. It is recommended for lubricating parts of heavy loading and heavy turning speed machines. The working temperatures for NGLI 2 should not exceed 189°C .

Features & Benefits

- Good anti-oxidation and anti-rust properties
- Works at low temperatures.
- Excellent water resistance
- Good adhesive properties

Typical Properties

Soap base	Lithium
NLGI Classification	2
Color	Pale Yellow
Drop Point (°C), min	189
Worked Cone Penetration (0.1mm)	263
Texture	Smooth, Buttery

Available Packings: 15kg

The above product when used according to our recommendations and for the purpose for which it is intended, presents no particular hazards.

JC HARDY TRADING CO PTE LTD

Applications

- To be used in heavily loaded medium/high speed bearings, preventing bearing damage caused by excessive vibration from shock damage.
- Suitable for lubrication of automotive and tractors parts where sliding motions are prominent.
- Can be used in both dry and moist conditions.
