

FUJIDA HEAVY GREASE

Premium Industrial Bearing Grease

Description

FUJIDA HEAVY GREASE is a complex calcium-based grease with good water resistance property. It is recommended for lubricating parts of medium loading and medium turning speed machines. The working temperatures for NGLI 2 should not exceed 55°C .

Features & Benefits

- Good anti-oxidation and anti-rust properties
- Excellent water resistance
- Good adhesive properties

Typical Properties

Soap base	Calcium
NLGI Classification	2
Color	Red
Drop Point (°C), min	80
Penetration, ASTM at 25°C (worked)	265-290
Texture	Smooth, Buttery

Available Packings: 500gm, 2kg, 15kg, 180kg

The above product when used according to our recommendations and for the purpose for which it is intended, presents no particular hazards.

JC HARDY TRADING CO PTE LTD

- Works at low temperatures.

Applications

- To be used in heavily loaded slow/medium speed bearings, preventing bearing damage caused by excessive vibration from shock damage.
- Suitable for lubrication of automotive and tractors parts where sliding motions are prominent.
- Can be used in both dry and moist conditions.
